

DEPOT-LEVEL MAINTENANCE SERVICES AVAILABILITY LIST

This list of medical equipment is updated periodically to inform customers of available maintenance services. The medical equipment items supported by the Medical Maintenance Operations Divisions are listed below and can be sent for all depot-level services. Prior to sending any other nonstandard medical equipment please contact the applicable maintenance activity to insure that the items can be supported. Shipping instructions for each of the medical maintenance operations are included in the external standard operating procedures (SOPs) listed under the Operation's respective headings. For additional information or clarification call USAMMA Force Sustainment Directorate at DSN 343-7441/4378 or Commercial 301-619-7441/4378.
